Registration form on back

8-15 students, Meet in Library.

Class held outdoors in garden areas

Release stored energy of winter!

What song does a bird sing? Can we find a nest? Or make one? Where do caterpillars hide? Where do butterflies fly?

Use magnifying glasses to study buds, shoots and leaves.
Why are leaves green instead of purple?

Look with new eyes as we walk the Alphabet Trail, looking for objects, tree branches and other things holding letter shapes.

For curious minds who enjoy problem solving, recording clues, asking questions, drawing, and noting observations in Nature Detectives notebook.
