This engaging, hands-on workshop shows students how to create a 1 or 2 page Legacy Letter or booklet as a written expression of core values, beliefs, gratitude, life lessons, hopes and dreams to honor the past, give meaning to the present and influence future generations.

Our goal is to make it easy to create a timeless letter or project to share with family, friends or community groups.

- When and why to write a Legacy Letter?
- View sample letters as guidance
- Use structured prompts as guides to draw information from memory, mentors, friends and family.
- Multiple handouts and resources provided for further study and preservation of your Legacy project in different media forms.
